

# GREEN EVENTS

A perfect event can also be “green”. Especially for meetings and events there are a lot of possible measures which benefit the environment. Whether the prevention of waste, a careful handling with energy and resources or the application of environmental friendly materials: At our house environmentalism is no compromise.

## Green Meetings & Events

- In the future we plan to send proposals, contracts and invoices electronically
- digital signage and recyclable paper signage beside the door of the function room
- Use of environmental friendly materials:
  - Recycling- or FSC\*-paper/whiteboards instead of flipcharts
  - Recyclable pens (biologically degradable)
  - 100 % recyclable paper
- Water service from carafes and drinks from big bottles with screw-cap
- Candy bar: snacks with no packaging
- Menu proposals composed of local products
- Fair trade products such as fair trade coffee
- Less electricity: all Green Meetings take place in function rooms with direct day-light
- Free Granny Smith apples in our function rooms
- Less table linen: less environmental pollution
- Possible CO2-compensation via the “Juma Amazon Rainforest Project“

As global forerunner in sustainable Hotel-Management we present our fresh ideas with the preparation of a delicious 3-course-menus in your lunch break. Our cuisine attaches great importance on fresh seasonal and local products, as well as on appropriate quantities of the servings.

Anyone who wants to make a contribution to the sustainable development thinks futuristically at the same time. With **Green Meetings** the Courtyard by Marriott Berlin City Center gives you the assurance of connecting your perfect events with environmental friendliness - today, tomorrow and the day after tomorrow.
