

A breath of fresh air at the Miami Airport Marriott®.

PURE™ ALLERGY FRIENDLY ROOMS

Breathe easier and awaken more refreshed in one of our PURE Rooms, our new allergy friendly accommodations. We want every guest to be as comfortable as possible, including those with allergies, asthma and other respiratory problems. The Environmental Protection Agency (EPA) indicated that indoor air pollutants may be up to 100 times higher than the outdoor air, and the PURE Rooms significantly reduce the risk of potential irritants during your stay. We designated an entire floor, 30 rooms total, as certified PURE Rooms for maximum comfort during your stay.

Comforting features of our new PURE Rooms include:

- Sanitized heater and air conditioner, further cleaned with PURE Tea Tree Oil
- Cleansed and sanitized soft surfaces, to eliminate contaminants that trigger allergies
- PureShield™ application on all surfaces, to minimize the growth of bacteria
- One-time high ozone shock treatment, to remove any remaining allergy triggers, and to eliminate room odors
- In-room air purification system (class II medical device), to render air quality four times cleaner than the threshold for asthma patients
- Hypo-allergenic pillow cases and mattress covers, to eliminate dust and dander associated with bedding

For allergy-friendly accommodations, for only \$20 more a night, choose a PURE Room at the Miami Airport Marriott. To inquire about rates and availability, call us at 1-800-228-9290, or visit marriott.com/MIAAP for more information.
