**THANKS FOR  
SUPPORTING OUR  
COMMITMENT TO GREEN**

©2008 Marriott International

It's your planet. At the New York Marriott Marquis we promise to help protect it, while giving you every opportunity to make the most of it.

You can be confident that you're joining us in this important mission, by taking a quick look at how we're changing our business.

### **ENERGY CONSERVATION**

- recent lighting conversion helped us reduce energy consumption by 793,300 kWh in 2007 (enough energy to run your home for 72 years)
- conversions in building mechanical and ventilation helped reduce energy consumption by 3%
- automatic faucets in restrooms and other measures helped reduce water consumption by 9%
- Energy Management System installation in progress will produce a 2,887,337 kWh reduction

### **LINEN REUSE**

With support from guests like you who reuse linens on multiple night stays, we've reduced our total linen laundry by:

- 2,281,724 total lbs.
- 3.7 lbs. per occupied room

### **GREEN MEETINGS**

Your meeting can be productive at the same time that it's eco-friendly:

- pads, folders, pens and other materials are recyclable
- glass pitchers vs. plastic bottles for water
- use of bulk condiments on all food and beverage presentations

- environmentally-friendly, organic, and locally produced refreshments
- drop cloths that don't require daily laundering vs. linens
- whiteboards in place of paper flipcharts

### **PRESERVING A GREEN PLANET**

Make more green at your next meeting. Between now and 12/31/09, a contribution equal to 5% of your group's guest rooms will be contributed in your organization's name to help preserve the Jumba Sustainable Development Reserve partnership with the state of Amazonas in Brazil.

Visit [Marriott.com/preservetherainforest](http://Marriott.com/preservetherainforest) for details and select dates.

### **SUPPORTING GREEN PARTNERS**

Be an advocate! A variety of green products are now available in the Marquis Gift Shop.

- organic beverages and snacks
- "Going Green" T-shirts
- Eco cleaning products
- Eco water bottles

### **GREEN FUTURE**

We know what's important to you, so we've requested proposals from all of our suppliers for ways to provide us their goods and services in ways that will make us even more environmentally friendly in the future.

Potential changes that are now being considered include:

- use of only recycled paper
- changing room keys to paper or recycled plastic
- biodegradable bottles for all room amenities
- reusable shopping bags in our stores

Thanks for joining us in doing everything possible to make a greener planet.

And, of course, we're always interested in hearing your suggestions. ([greensuggestions@marriott.com](mailto:greensuggestions@marriott.com))
