

HANBURY MANOR
A MARRIOTT HOTEL & COUNTRY CLUB

Environmental Policy

In accordance with our vision to be recognised as the region's leading hotel by customers, investors and associates, the Hanbury Manor a Marriott Hotel & Country Club is committed to minimising and controlling the impact of its business on the environment by means of achieving and compliance with the following:

Meet the requirements of all relevant legislation and regulations and where no Legislation exists, set our own minimum standards.

Meet objectives and targets and continuously review our objectives and targets With a view to improving performance.

Minimise waste generation by reducing, reusing and recycling wherever possible.

Adopt energy efficient practises throughout the hotel and build energy efficiency into future refurbishment projects.

In conjunction with the Marriott International Environmental Purchasing Policy, work with our suppliers to minimise the impact of their products on the environment.

Ensure efficient use of essential chemicals and provide adequate training to all Associates in the use and storage of chemicals.

Involve the local community, associates, leisure club members and guests by making them aware of the hotel's commitment to this policy via meetings, notice boards and newsletters.

Provide all associates with the environmental policy induction and training as part of the hotel procedure.

Work with the community to recycle or redistribute any obsolete equipment, furniture or textiles.

Share environmental best practises with our major local organisations.

Take actions to make sure we are using water efficiently.

Benchmark with other hotels to make sure that we are doing the best that we can.
