**(LOS ANGELES, CA; Oct. 7, 2019)** – *Condé Nast Traveler* today announced the results of its annual Readers’ Choice Awards, recognizing the [SLS Hotel, a Luxury Collection Hotel, Beverly Hills](#) with the highly-coveted honor of “#1 Hotel in the United States” and subsequently “#1 Hotel in Los Angeles, California.” More than 600,000 *Condé Nast Traveler* readers across the globe submitted a record-breaking number of responses rating their travel experiences to provide a full snapshot of where and how we travel today.

Since its recognition as the “#2 Hotel in Los Angeles” in 2018, SLS Beverly Hills has continued to reimagine the modern luxury experience while staying true to the iconoclast principles on which the hotel was founded.

Guests who stayed at the hotel during the 2018-2019 voting period were among the first to experience the hotel’s comprehensive multimillion-dollar renovation, rooted in guest feedback and the desire to exceed the modern traveler’s expectations.

“We are honored and humbled by the immense outpouring of support for our ongoing investment into anticipating what visitors seek out during their stay in Los Angeles,” said General Manager Christophe Thomas. “This recognition is a testament to the pride our team takes in embracing the ever-evolving travel landscape and curating a collection of unrivaled experiences for those seeking a truly distinct hotel setting in a world-class destination.”

Additionally, the flourishing subset of travelers seeking out exceptional dining were welcomed to enjoy the two Michelin-starred Somni and Michelin Plate recipient The Bazar by José Andrés, both featured in the inaugural 2019 Michelin Guide California. The only hotel in California with two Michelin Guide-listed restaurants, the SLS Beverly Hills’ unique culinary program is curated by world renowned Chef José Andrés.

Visitors also had access to immersive programming at the award-winning rooftop Altitude Pool and the hotel’s Les Clefs d’Or-led Concierge team providing intimate insight to the locale through new programming such as Destination Discoveries.
