We have Park Here Fly There packages available that include up to 10 days of parking. These packages are how we control how many cars we can accommodate in our parking lot. If you book in another manner such as Marriott Reward Points, Expedia, Priceline etc we are unable to determine who is going to need a long term spot and who isn't. In order to prevent overcrowding in our parking lot the following policy is followed to accommodate all of our guests.

If booked in any manner other than the Park Here Fly There package parking is subject to availability. If we have the parking we charge \$8 per day. If we don't have parking available we recommend the economy parking at the Kansas City Airport. The cost in economy parking is also \$8 per day.
