

Sustainability Statement - The Hague Marriott Hotel

We are conscious of the presence of the presence of our activities on the surroundings and the society and we will act accordingly, in such matter, that the natural environment will be preserved for future generations. We are doing this by making sustainability one of our key priorities within our business processes, services and products.

To realize our sustainability goals, we are making choices and are seeking for a balance between mankind, planet and result. This is a constant process, with no final destination. We are constantly seeking for achievable steps in order to live up to our social responsibility goals. In order to achieve this, we are conducting following measures:

- We are aware of corporate social responsibility developments within our sector and are contributing to knowledge exchange to our associates and all other interested in learning on corporate social responsibility:
 - ✓ All our associates will be informed upon enlistment and each semester about sustainability measures and goals
 - ✓ Consultancy firm "Green Label Service" supports with our sustainability conduct. They are specialized within the hospitality industry
 - ✓ Member of the sustainability round table for Hotels of the municipality of The Hague.
 - ✓ Good collaboration with "Employers Service Punt The Hague". The purpose is to help people with difficulties in the labor market to gain experience and help them to build a career
- We inform all our guests, associates and suppliers on how we live up to our corporate social responsibility.
 - ✓ Via e.g. the sustainability statement, Twitter and Facebook and all our suppliers must have a sustainability plan within their corporation
- We contribute to charity through gifts, sponsorship and volunteer work by contributing to e.g. the following events:
 - ✓ Annual charity event
 - ✓ Donation of 1 euro per sold Marriott Burger to S.O.S. Children's Village
 - ✓ Earth Hour
- We are constantly putting effort into reducing our global (CO2) footprint and enlarging the sustainable character of our hotel. By actively trying to reduce our waste and consumption of gas, water, electricity and fossil fuels.
 - ✓ Cartridges and cellphones are collected for "Stichting Aap"
 - ✓ Charging stations are available for electric cars
 - ✓ We use renewable energy
 - ✓ RetourMatras collects our mattresses to recycle them
 - ✓ We promote bicycle rental among our guests
- We are constantly improving our purchasing process and are having a preference for biological, Fairtrade and local produce.
 - ✓ All cleaning supplies are having an European EPA certification
 - ✓ As partner of Fish and Season foundation we supporting sustainable fishing
 - ✓ We use biological and fairtrade products
 - ✓ All print, toilet and tissue paper is either recycled or coming from sustainable forests
