**Many of the wines featured on our wine list are local to British Columbia and of those all are VQA certified.**

Vintners Quality Alliance, or VQA is a regulatory and appellation system which guarantees the high quality and authenticity of origin for Canadian wines made under that system in British Columbia. It is similar to regulatory systems in France, Spain, Italy, and Germany. The VQA system allows for sub-appellations, by which the grapes for wines are sourced from extremely specific geographical locations with different soil and climate.

You can always bring your unfinished wine home.  
Please let us know and we will be pleased to recork the bottle.
